

## WYOMING NATURAL GAS PRICES ADJUSTED

Your current natural gas bill reflects a change in the purchased gas adjustment (PGA). The PGA, approved by the Wyoming Public Service Commission, changes our retail prices either upward or downward depending on the specific circumstances of the period it covers including purchased gas costs and other costs that are passed along to us by our pipeline suppliers. The adjustment is strictly a pass-through to our customers and does not provide Montana-Dakota with a profit.

New PGAs for natural gas are shown in this folder and will become effective with service rendered on and after January 1, 2017. The net effect of this adjustment is an increase of \$0.198 per dk for residential and firm general customers, an increase of \$0.198 per dk for interruptible customers, and an increase of \$0.199 for seasonal firm customers.

### Residential Natural Gas Service – Rate 60
