- Enroll electronically at www.montana-dakota.com by logging into your account online and completing the online form.
- Your bill will show the amount and date your payment will be made.
- Your preauthorized payment is withdrawn 10 business days following your bill date, which is shown on your bill stub.

Balanced Billing

Balanced Billing takes the guesswork out of budgeting and levels out your monthly Montana-Dakota bill so you can reduce fluctuations brought on by changes in the weather and price of energy.

To enroll, log in to your account online or contact Customer Service.

When you enroll in Balanced Billing, your monthly bill is computed by taking an average of your natural gas and/or electric usage during the previous 11 months and the current month's usage. Current energy rates are then applied to this average monthly usage to calculate the current payment due. Averaging your usage over the year can reduce the large cost fluctuations from extreme weather conditions.
