

Montana-Dakota Utilities Co.

Annual Update to the Transmission Cost Adjustment

Effective November 1, 2023

On July 14, 2023, Montana-Dakota Utilities Co. (Montana-Dakota) filed an application with the North Dakota Public Service Commission (Commission) to update its Transmission Cost Adjustment (TCA) rates. The TCA rate update includes North Dakota's allocation of transmission related net expenses assessed by both the Midcontinent Independent System Operator (MISO) and the Southwest Power Pool (SPP) for transmission-related services currently not being recovered through the Company's electric service rates, the inclusion of specified transmission related capital projects, and a projected over-recovery of the deferred TCA balance. The TCA rates also reflect the inclusion of the transmission-related net benefit of a large customer now taking service under Rate 45.

On September 27, 2023, the Commission approved Montana-Dakota rates effective with service rendered on and after November 1, 2023. A typical residential customer using 800 Kwh will see a decrease of \$5.09 per month or a decrease of \$61.08 annually. The TCA is shown as a separate line item on your bill.

Annual Update to the Transmission Cost Adjustment (Cont.)
