

**Montana-Dakota Utilities Co.**  
**Annual Update to the Generation**  
**Resource Recovery Rider**  
Effective February 1, 2024

On October 31, 2023, Montana-Dakota Utilities Co. (Montana-Dakota) filed its application with the North Dakota Public Service Commission (Commission) to update its Generation Resource Recovery Rider (GRRR) rates in accordance with the Company's Generation Resource Recovery Rider Adjustment Rate 56 tariff that states the rates will be revised annually to reflect the most recent projected costs to be recovered.

The GRRR update reflects projected costs through December 31, 2024 related to the amortization of the regulatory assets related to Lewis and Clark Unit 1, and Heskett Units I and II, the Financial Incentive related to the Company's Power Purchase Agreement and a projected under-recovery of 2023 costs.

On January 24, 2024, the Commission approved Montana-Dakota's Generation Rider rates effective with service rendered on and after February 1, 2024. A typical residential customer using 800 kWh will see a decrease of \$0.01 per month or a decrease of \$0.12 annually. The GRRR is shown as a separate line item on your bill.

# Annual Update to the Generation Resource Recovery Rider (Cont.)
