

Notice of North Dakota Public Input Sessions

The North Dakota Public Service Commission (Commission) has scheduled two informal public input sessions to be held on **Wednesday, April 5, 2023 at 12:00 p.m. Central Time and 5:00 p.m. Central Time** to allow customers of Montana-Dakota Utilities Co. (Montana-Dakota) the opportunity to present their input regarding Montana-Dakota's application to increase their electric rates filed with the Commission on May 16, 2022.

Montana-Dakota's request is for an overall increase of 12.3 percent over current rates or approximately \$25.4 million in additional annual revenues if approved by the Commission. The increase is primarily due to increased investments necessary for providing safe and reliable electric service to the Company's customers. If the increase is granted as filed, the typical non-space heating residential customer using 800 Kwh a month would see an increase of approximately \$14.94 per month. The Commission has up to seven months to issue a decision on the proposed increase request.
