Montana-Dakota Utilities is committed to keeping you safe by reducing excavation damage to underground facilities through education and awareness. Always call **811** before you dig to get your utility lines located, and dig safely using proven excavation methods.

Please refer to your state's Dig Law for more information.

FOLLOW THESE SIMPLE STEPS

- Call 811 or visit www.Call811.com before you plan to dig to have underground utilities marked for free.
- If you are a subcontractor, protect yourself and your company by calling 811 for a locate ticket. The general contractor's ticket does not apply to anyone except them.
- Outline/mark your planned dig site in white paint.
- Wait for ALL utility lines to be marked before digging.
- Maintain the locate marks throughout the lifetime of the project.
- There is a tolerance zone on either side of the markings. Hand dig to expose and determine the exact location of utilities before proceeding with excavation.
- Use acceptable backfill (such as sand or rock-free dirt) and proper compaction to avoid damage to facilities.
- Stop excavating immediately if you find unmarked gas or electrical lines and call 811 to have them marked.
- If there is a release of natural gas, leave the area and call 911. Then, call Montana-Dakota Utilities and keep others clear of the area.
- Call Montana-Dakota Utilities to report all hit electric or gas lines - even if there is no blowing gas. Minor nicks and wrap damage can be dangerous if left unrepaired.
- Never try to fix a damaged electrical or natural gas line or try to restrict the gas flow in any way.

UTILITY COLOR CODES

All utilities will mark the location and path of their underground facilities using the following colors:

	WHITE: Proposed Excavation
	FLUORESCENT PINK: Temporary Survey Markings
	RED: Electric Power Lines, Cables, Conduit and Lighting Cables
	YELLOW: Gas, Oil, Steam, Petroleum or Gaseous Materials
	ORANGE: Communication, Alarm or Signal Lines, Cables or Conduit
	BLUE: Potable Water
	PURPLE: Reclaimed Water, Irrigation and Slurry Lines
	GREEN: Sewers and Drain Lines
