

Montana-Dakota Utilities Co. Annual Update to the Renewable Resource Cost Adjustment

Effective April 1, 2019

On November 2, 2018, Montana-Dakota Utilities Co. (Montana-Dakota) filed an application with the North Dakota Public Service Commission (Commission) to update its Renewable Resource Cost Adjustment (RRCA). The RRCA rate update includes North Dakota's allocation of the Company's investments in Montana-Dakota's three wind facilities (Diamond Willow, Cedar Hills, and Thunder Spirit) currently not being recovered through the Company's electric service rates.

On March 13, 2019, the Commission approved Montana-Dakota's RRCA rates effective with service rendered on and after April 1, 2019. A typical residential customer using 894 Kwh will see an increase of \$1.52 per month. The Renewable Resource Adjustment is shown as a separate line item on your bill.
