## **Annual Update to the Transmission Cost Adjustment**

Effective October 28, 2019

On July 19, 2019, Montana-Dakota Utilities Co. (Montana-Dakota) filed an application with the North Dakota Public Service Commission (Commission) to update its Transmission Cost Adjustment (TCA) rates. The TCA rate update includes North Dakota's allocation of transmission related net expenses assessed by both the Midcontinent Independent System Operator (MISO) and the Southwest Power Pool (SPP) for transmission-related services currently not being recovered through the Company's electric service rates, the inclusion of specified transmission related capital projects, and a projected over-recovery of the deferred TCA balance.

On October 22, 2019, the Commission approved Montana-Dakota rates effective with service rendered on and after October 28, 2019. A typical residential customer using 894 Kwh will see an increase of \$0.25 per month or an increase of \$3.00 annually. The TCA is shown as a separate line item on your bill.
