

Montana-Dakota Utilities Co.

Annual Update to the Transmission Cost Adjustment

Effective November 1, 2020

On July 17, 2020, Montana-Dakota Utilities Co. (Montana-Dakota) filed an application with the North Dakota Public Service Commission (Commission) to update its Transmission Cost Adjustment (TCA) rates. The TCA rate update includes North Dakota's allocation of transmission related net expenses assessed by both the Midcontinent Independent System Operator (MISO) and the Southwest Power Pool (SPP) for transmission-related services currently not being recovered through the Company's electric service rates, the inclusion of specified transmission related capital projects, and a projected under-recovery of the deferred TCA balance.

On October 28, 2020, the Commission approved Montana-Dakota's rates effective with service rendered on and after November 1, 2020. A typical residential customer using 894 Kwh will see an increase of \$2.95 per month or an increase of \$35.40 annually. The TCA is shown as a separate line item on your bill.

Notice of Annual Update to the Transmission Cost Adjustment (Cont.)
