

Other Rates Available:

- Rate 11 – Special Residential Controlled Electric Service;
- Rate 22 – Special General Controlled Electric Service;
- Rate 24 – Outdoor Lighting Service;
- Rate 37 – Large Power Standby Service;
- Rate 41 – Municipal Lighting; and
- Rate 57 – Parallel Generation.

How to Figure Your Bill:

This information is to assist you in checking your bill. A residential customer taking service on Rate 10 is used for this example.

1. Assume a typical residential customer uses 500 Kwh* per month.
2. Determine amounts for each billing component of Rate 10.

Basic Service Charge (30 days x \$0.769)	\$ 23.07
Energy Charge 500 Kwh at \$0.04299	21.50
PSCA 500 Kwh at \$0.03804	<u>19.02</u>
Total Billing (excluding tax).....	\$ 63.59

* A Kwh (Kilowatt-hour) is one thousand watts used for one hour. For example, the electric energy used by ten 100-watt bulbs burning for one hour equals one kwh.

** The PSCA per Kwh reflected on your first bill may be prorated depending on the date your meter was read. The PSCA is prorated to reflect the PSCA in effect at the time service is actually rendered, rather than when your bill is processed. This means that any electric consumption (Kwh) used prior to May 1, 2021 will be billed at the old rate and any electric consumption (Kwh) used on or after May 1, 2021 will be billed at the new rate.

For further information, the applicable rates, rules and regulations are on file at Montana-Dakota's Sheridan office and available for your inspection upon request. The information can also be viewed online at www.montana-dakota.com.

A Change in Your Electric Bill

Effective May 1, 2021

The Wyoming Public Service Commission (PSC) has authorized a change in Montana-Dakota's annual Power Supply Cost Adjustment (PSCA) Rate 50.

The net effect of the tracking adjustment is an increase in your electric rates of \$0.00216 per Kwh for primary service customers and an increase of \$0.00322 per Kwh for secondary service customers effective with service rendered on and after May 1, 2021. The PSCA is shown as a separate line item on your bill.

A residential customer using 500 Kwh during a month who had been paying \$61.98 per month will now pay \$63.59.

Residential Electric Service – Rate 10

This rate is applicable to all communities for residential electric service through one meter in a single private residence for all domestic uses, except electric space heating.

Basic Service Charge.....	\$0.769 per day
