In the Community to Serve®

<sup>\*</sup> Tier 1 thermostat is defined as having at least 4 programmable periods/day and a separate program schedule for the work week vs. the weekend. To qualify, the tier 1 thermostat must be purchased and installed by a heating contractor with a new high efficiency furnace or boiler.

<sup>\*\*</sup> Tier 2 thermostat is defined as being a communicating Wi-Fi connected thermostat with customer access to set points and schedule from anywhere with a smart device. The tier 2 thermostat does not require contractor installation nor the purchase of a qualifying new high efficiency furnace or boiler.
