Montana-Dakota Utilities is proud to be celebrating its 100th anniversary.

What began in 1924 as a small electric utility serving a handful of communities on the Montana and North Dakota border has grown into a company serving communities across four states. The company's dedication to providing safe and reliable electric and natural gas service to customers continues to be the cornerstone of its business today.

As the company reflects on and celebrates 100 years of service, it looks forward to the next century of providing safe, reliable and cost-effective electric and natural gas services.
