Balanced Billing Plan

Levelize payments

Balanced Billing takes the guesswork out of budgeting and levels out your monthly energy expenses so you don't have to be concerned about extremes in the weather impacting your bill. You pay an even monthly amount through the year, and reduce fluctuations brought on by changes in the weather and price of energy.

- ▶ Available to residential and commercial customers who meet the program criteria. You may join anytime during the year.
- ▶ Balanced Billing payments must be made each month. Missing payments may result in removal from Balanced Billing, at which time the full balance will become due.
