

RENEWABLE ENERGY IN WYOMING

Support renewable energy efforts through the Renewable Energy Rider program.

- This voluntary program allows Wyoming electric service customers to purchase blocks of energy associated with Renewable Energy Credits.
- Renewable Energy Credits are awarded when electricity is generated through renewable sources such as wind, solar or biomass.
- Montana-Dakota purchases wind energy credits for the program.
- Wyoming customers can enroll to purchase the renewable energy credits through an additional charge on their electric utility bill.

YES, I would like to support renewable energy through the purchase of RENEWABLE ENERGY CREDITS.

Number of blocks I would like to purchase (\$0.22 per block*): _____

Customer Name: _____

Service Address: _____

City: _____ State: _____ ZIP Code: _____

Montana-Dakota Account Number: _____

Phone Number: _____

Email Address: _____

Signature: _____ Date: _____

I understand that by participating in Montana-Dakota's Renewable Energy program that my commitment is for one full year and will continue on a month-to-month basis after the first year until I choose to discontinue participation in the program. To discontinue participation, call Montana-Dakota at **800-638-3278**.

**The rate charged per 100 kWh block will be evaluated on an annual basis and is subject to change. Customers participating in the program will be informed if the price changes.*

WHAT ARE THE BENEFITS OF PURCHASING RENEWABLE ENERGY CREDITS?

Many people are interested in reducing their carbon footprint. Supporting renewable energy is an option for reducing reliance on fossil fuels.

Currently, Montana-Dakota does not have renewable resources in the electric generation mix serving customers in Wyoming. This program allows customers to purchase renewable energy credits in blocks of 100 kilowatt hours, which supports renewable generation projects.

WHO IS ELIGIBLE TO PURCHASE RENEWABLE ENERGY CREDITS?

This program is available to all Wyoming customers (residential and commercial) served with electricity from Montana-Dakota.

HOW DOES THE PROGRAM WORK?

Customers may purchase blocks of 100 kWh of renewable energy credits at a cost of \$0.22* per block. The average residential customer uses approximately 900 kWh per month, so a customer wanting to support 100 percent of their usage with renewable energy would need to purchase nine blocks per month, adding approximately \$1.98 to their bill per month. However, customers may purchase as many or as few blocks as they would like.

The renewable energy blocks purchased will be billed as a line item on your Montana-Dakota bill. Participation in this program requires committing for one full year and then will continue on a month-to-month basis after the initial one-year term.

One Renewable Energy Credit equals 1,000 kWh. Each block sold in this program represents one-tenth of a Renewable Energy Credit.

*The rate charged per block will be evaluated on an annual basis and is subject to change. Customers participating in this program will be informed if the price changes.

HOW DO I SIGN UP TO PARTICIPATE IN THE PROGRAM?

Do one of the following to enroll:

- ▶ Call Montana-Dakota's Customer Service Center at **800-638-3278**.
- ▶ Fill out and mail the form on the back of this brochure to:

Montana-Dakota Utilities Co.
Attn: Customer Support
P.O. Box 7608
Boise, ID 83707-1608

- ▶ Scan the QR Code to the right with your smart device and fill out the online request form.
- ▶ Fill out the online request form by visiting our website at **www.montana-dakota.com**, under Rates and Services select Wyoming Renewable Energy Credit Purchase Program
