* Tier 1 Thermostat is defined as having at least 4 programmable periods/day and a separate program schedule for the work week vs. the weekend. To qualify, the Tier 1 Thermostat must be purchased and installed by a heating contractor with a new high efficiency furnace.

** Tier 2 Thermostat is defined as being a communicating Wi-Fi connected thermostat with customer access to set points and schedule from anywhere with a smart device. The Tier 2 Thermostat does not require contractor installation nor the purchase of a qualifying new high efficiency furnace.

Participation in these rebate programs is subject to eligibility requirements and compliance with all applicable terms and conditions. Montana-Dakota reserves the right to cancel or modify its rebate programs at any time.

Commercial Natural Gas Programs

Furnace replacement and custom project rebates are available to commercial natural gas customers.
