**Cost of Gas (Purchased Gas Cost Adjustment)
Rate 88**

The Cost of Gas may fluctuate from month to month based on the costs Montana-Dakota pays for natural gas and related pipeline services. These costs are passed directly on to customers. Montana-Dakota does not earn a profit from the Cost of Gas.

CTA (Conservation Tracking Adjustment) Rate 90

The CTA is a charge per Dk that applies to customers billed under Residential Service Rate 60 and Firm General Services Rates 70 and 72. The charge recovers costs related to a portfolio of conservation programs authorized by the South Dakota Public Utilities Commission and may change annually.

Payment: Bills are past due if payment is not received by the due date shown on the bill. A late payment charge of 1% per month will be applied to any existing unpaid balance and reflected on the next bill.

Returned Check Charge: If a financial institution returns a check for insufficient funds, Montana-Dakota will charge a \$40.00 returned check charge.

Seasonal Reconnection Charges: Residential Customers: if reconnection of the same service at the same location is requested within 12 months after service is discontinued, Montana-Dakota will charge the Basic Service Charge for the period service was not used, plus a \$30.00 reconnection fee during normal business hours. Standard overtime rates apply for reconnections made after normal business hours. Non-Residential Customers: the same charges apply as for residential customers. However, seasonal businesses, such as swimming facilities and asphalt processing businesses, may receive a credit for Distribution Delivery Charge revenue collected while service was active.
