## Rate Review for Montana-Dakota Natural Gas Customers

The purpose of this brochure is to provide you with information regarding your natural gas rates. The Company's tariffs are not changing; however, this information may be helpful when reviewing your natural gas bill.

Natural Gas usage is measured in decatherms. The abbreviation dk is used in the rate schedules which follow. The prices for various classes of customers are shown below.

The Cost of Gas is applicable to the energy you use each month. The amount of the charge, subject to change each month includes purchased gas costs and other costs that are passed along to the Company by pipeline suppliers. The adjustment is strictly a pass-through to our customers and does not provide Montana-Dakota with a profit.
