Effective with service rendered on and after September 1, 2020
POWER FACTOR CLAUSE:
The Company reserves the right to require the customer to install adequate
equipment so that at all times it can operate its facilities to maintain a power factor
between 90% lagging and 90% leading. If the customer operates outside this
range, the maximum 15 minute integrated reactive kilovolt amperes in excess of
50% of the maximum 15 minute integrated kilowatt demand for the same month
will be billed at $3.35 per Kvar of such excess demand.

GENERAL TERMS AND CONDITIONS:
1. Customers or their architects, contractors and electricians should consult with
the Company before proceeding to design or erect installations in which there
will be a substantial electric load, to make sure their equipment will meet
requirements and receive adequate service.

2. The primary service rate is applicable to customers that own their own
transformers, related equipment, and distribution facilities downstream of the
meter, satisfactory to the Company so customer can receive service and be
metered at primary voltages of 2,400 volts or greater.

3. Customer agrees to contract for service under the Optional Time-of-Day Small
General Electric Service rate for a minimum period of one year. At the end of a
one-year period, customer shall have the option of remaining under the
Optional Time-of-Day Small General Electric Service rate or of returning to the
regular Small General Electric Service rate.

4. The foregoing schedule is subject to Rates 100-131 and any amendments or
alterations thereto or additional rules and regulations promulgated by the
Company under the laws of the state.
