Director – Regulatory Affairs

Docket No. D2017.9.79
Service rendered on and after June 15, 2018
I. PURPOSE:
These rules are intended to define good practice which can normally be expected, but are not intended to exclude other accepted standards and practices not covered herein. They are intended to ensure adequate service to the public and protect the Company from unreasonable demands.

The Company undertakes to furnish service subject to the rules and regulations of the Public Service Commission of Montana and as supplemented by these general provisions, as now in effect or as may hereafter be lawfully established, and in accepting service from the Company, each customer agrees to comply with and be bound by said rules and regulations and the applicable rate schedules.

II. DEFINITIONS:
The following terms used in this tariff shall have the following meanings, unless otherwise indicated:

AGENT – The party authorized by the transportation service customer to act on that customer's behalf.

APPLICANT - Customer requesting the Company to provide service.

COMMISSION - The Public Service Commission of the State of Montana.

COMPANY - Montana-Dakota Utilities Co. (Montana-Dakota)

COMPANY'S OPERATING CONVENIENCE - The utilization, under certain circumstances, of facilities or practices not ordinarily employed which contribute to the overall efficiency of the Company's operations. This does not refer to customer's convenience nor to the use of facilities or adoption of practices required...
Natural Gas Service

CONDITIONS OF SERVICE Rate 100

to comply with applicable laws, ordinances, rules or regulations, or similar requirements of public authorities.

CURTAILMENT - A reduction of transportation or retail natural gas service deemed necessary by the Company.

CUSTOMER - Any individual, partnership, corporation, firm, other organization or government agency supplied with service by the Company at one location and at one point of delivery unless otherwise expressly provided in these rules or in a rate schedule.

DELIVERY POINT - The point at which customer assumes custody of the gas being transported. This point will normally be at the outlet of the Company's meter(s) located on customer's premises.

EXCESS FLOW VALVE – Safety device designed to automatically stop or restrict the flow of gas if an underground pipe is broken or severed.

GAS DAY - Means a period of 24 consecutive hours, beginning and ending at 9:00 a.m. Central Clock Time.

INTERRUPTION - A cessation of transportation or retail natural gas service deemed necessary by the Company.

NOMINATION - The daily dk volume of the natural gas requested by customer for transportation and delivery to customer at the delivery point during a gas day.

PIPELINE – The transmission company(s) delivering natural gas into Company's system.

RATE - Shall mean and include every compensation, charge, fare, toll, rental and classification, demanded, observed, charged or collected by the Company for any

Docket No. D2017.9.79

Service rendered on and after June 15, 2018
service, product, or commodity, offered by the Company to the public. This includes any rules, regulations, practices or contracts affecting any such compensation, charge, fare, toll, rental or classification.

RECEIPT POINT - The intertie between the Company and the interconnecting Pipeline(s) at which point the Company assumes custody of the gas being transported.

SHIPPER - The party with whom the Pipeline has entered into a service agreement with in order to provide transportation service.

III. CUSTOMER OBLIGATIONS:
1. APPLICATION FOR SERVICE - Customer desiring gas service must make application to the Company before commencing the use of the Company's service. The Company reserves the right to require a signed application or written contract for service to be furnished. All applications and contracts for service must be made in the legal name of customer desiring the service. The Company may refuse an applicant or terminate service to customer who fails or refuses to furnish reasonable information requested by the Company for the establishment of a service account. Any person who uses gas service in the absence of an application or contract shall be subject to the Company's rates, rules, and regulations and shall be responsible for payment of all service used.

Subject to rates, rules, and regulations, the Company will continue to supply gas service until notified by customer to discontinue the service. Customer will be responsible for payment of all service furnished through the date of discontinuance.

Any customer may be required to make a deposit as required pursuant to Rate 100, §V.6.
2. SERVICE AVAILABILITY – Gas will normally be delivered at standard pressures of four or five ounces, dependent on the service area where the gas service is being delivered. Delivery of gas service at pressures greater than the standard operating pressure may be available and will require a consultation with the Company to determine availability.

3. INPUT RATING - All new customers whose consumption of gas for any purpose will exceed an input of 2,500,000 Btu per hour, metered at a single delivery point, shall consult with the Company and furnish details of estimated hourly input rates and pressures required for all gas utilization equipment. Where system design capacity permits, such customers may be served on a firm basis. Where system design capacity is limited, and at the Company's sole discretion, the Company will serve all such new customers on an interruptible basis only. Architects, contractors, heating engineers and installers, and all others should consult with the Company before proceeding to design, erect or redesign such installations for the use of natural gas. This will ensure that such equipment will conform to the Company's ability to adequately serve such installations with gas.

4. ACCESS TO CUSTOMER'S PREMISES - Company representatives, when properly identified, shall have access to customer's premises at all reasonable times (8:00 am to 5:00 pm Monday through Friday unless an emergency requires access outside of these hours) for the purpose of reading meters, making repairs, making inspections, removing the Company's property, or for any other purpose incident to the service.

5. COMPANY PROPERTY - Customer shall exercise reasonable diligence in protecting the Company's property on their premises and shall be liable to the Company in case of loss or damage caused by their negligence or that of their employees.
6. INTERFERENCE WITH COMPANY PROPERTY - Customer shall not disconnect, change connections, make connections or otherwise interfere with the Company's meters or other property or permit same to be done by other than the Company's authorized employees.

7. RELOCATED LINES - Where Company facilities are located on a public or private utility easement and there is a building encroachment over gas facilities (Company-owned main, Company-owned service line or customer-owned service line) the customer shall be charged for the line re-location on the basis of actual costs incurred by the Company including any required easements.

8. NOTIFICATION OF LEAKS - Customer shall immediately notify the Company at its office of any escape of gas in or about customer's premises.

9. TERMINATION OF SERVICE - Customer is required to notify the Company, to prevent liability for service used by succeeding tenants, when vacating their premises. Upon receipt of such notice, the Company will read the meter and further liability for service used on the part of the vacating customer will cease.

10. REPORTING REQUIREMENTS - Customer shall furnish the Company all information as may be required or appropriate to comply with reporting requirements of duly constituted authorities having jurisdiction over the matter herein.

11. QUALITY OF GAS - The gas tendered to the Company shall conform to the applicable quality specifications of the transporting Pipeline’s tariff.

IV. LIABILITY:

1. CONTINUITY OF SERVICE - The Company will use all reasonable care to provide continuous service but does not assume responsibility for a regular and uninterrupted supply of gas service and will not be liable for any loss,
injury or damage resulting from the use of service, or arising from or caused by the interruption or curtailment of the same, except when such loss, injury or damage results from the negligence of the Company.

2. CUSTOMER'S EQUIPMENT - Neither by inspection or non-rejection, nor in any other way does the Company give any warranty, express or implied, as to the adequacy, safety or other characteristics of any structures, equipment, lines, appliances or devices owned, installed or maintained by customer or leased by customer from third parties. The customer is responsible for the proper installation and maintenance of all structures, equipment, lines, appliances, or devices on the customer's side of the point of delivery. The customer must assume the duties of inspecting all structures including the house piping, chimneys, flues and appliances on the customer's side of the point of delivery.

3. COMPANY EQUIPMENT AND USE OF SERVICE - The Company will not be liable for any loss, injury, death or damage resulting in any way from the supply or use of gas or from the presence or operation of the Company's structures, equipment, lines, or devices on customer's premises, except loss, injuries or damages resulting from the negligence of the Company.

4. INDEMNIFICATION - Customer agrees to indemnify and hold the Company harmless from any and all injury, death, loss or damage resulting from customer's negligent or wrongful acts under and during the term of service. The Company agrees to indemnify and hold customer harmless from any and all injury, death, loss or damage resulting from the Company's negligent or wrongful acts under and during the term of service.
5. FORCE MAJEURE - In the event of either party being rendered wholly or in part by force majeure unable to carry out its obligations, then the obligations of the parties hereto, so far as they are affected by such force majeure, shall be suspended during the continuance of any inability so caused. Such causes or contingencies affecting the performance by either party, however, shall not relieve it of liability in the event of its concurring negligence or in the event of its failure to use due diligence to remedy the situation and remove the cause in an adequate manner and with all reasonable dispatch, nor shall such causes or contingencies affecting the performance relieve either party from its obligations to make payments of amounts then due hereunder, nor shall such causes or contingencies relieve either party of liability unless such party shall give notice and full particulars of the same in writing or by telephone to the other party as soon as possible after the occurrence relied on. If volumes of customer's gas are destroyed while in the Company's possession by an event of force majeure, the obligations of the parties shall terminate with respect to the volumes lost.

The term "force majeure" as employed herein shall include, but shall not be limited to, acts of God, strikes, lockouts or other industrial disturbances, failure to perform by any third party, which performance is necessary to the performance by either customer or the Company, acts of the public enemy or terrorists, wars, blockades, insurrections, riots, epidemics, landslides, lightning, earthquakes, fires, storms, floods, washouts, arrest and restraint of rulers and peoples, civil disturbances, explosions, breakage or accident to machinery or lines of pipe, line freeze-ups, sudden partial or sudden entire failure of gas supply, failure to obtain materials and supplies due to governmental regulations, and causes of like or similar kind, whether herein enumerated or not, and not within the control of the party claiming suspension, and which by the exercise of due diligence such party is unable to overcome; provided that the exercise of due diligence shall not require settlement of labor disputes against the better judgment of the party having the dispute.

Natural Gas Service

Volume No. 6
3rd Revised Sheet No. 49.9
Canceling 2nd Revised Sheet No. 49.9

CONDITIONS OF SERVICE Rate 100

Page 10 of 26

The term “force majeure” as employed herein shall also include, but shall not be limited to, inability to obtain or acquire, at reasonable cost, grants, servitutes, rights-of-way, permits, licenses or any other authorizations from third parties or agencies (private or governmental) or inability to obtain or acquire at reasonable cost necessary materials or supplies to construct, maintain and operate any facilities required for the performance of any obligations under this agreement, when any such inability directly or indirectly contributes to or results in either party’s inability to perform its obligations.

V. GENERAL TERMS AND CONDITIONS:

1. AGREEMENT - Upon request of the Company, customer may be required to enter into an agreement for any service.

2. RATE OPTIONS - Where more than one rate schedule is available for the same class of service, the Company will assist customer in selecting the applicable rate schedule(s). The Company is not required to change a customer from one rate schedule to another more often than once in 12 months unless there is a material change in customer’s load which alters the availability and/or applicability of such rate(s), or unless a change becomes necessary as a result of an order issued by the Commission or a court having jurisdiction. The Company will not be required to make any change in a fixed term contract except as provided therein.

3. RULES FOR APPLICATION OF GAS SERVICE:
   a. Residential gas service is available to any residential customer for domestic purposes only. Residential gas service is defined as service for general domestic household purposes in space occupied as living quarters, designed for occupancy by one family with separate cooking facilities. Typical service would include the following: single private residences, single apartments, mobile homes with separate meters and

Issued: September 25, 2017

By: Tamie A. Aberle
Director – Regulatory Affairs

For Office Use Only – Do Not Print Below This Line

Docket No. D2017.9.79

Service rendered on and after June 15, 2018
auxiliary buildings on the same premise when used for residential purposes by the residential customer. This is not an all-inclusive list.

b. Nonresidential service is defined as service provided to a business enterprise in space occupied and operated for nonresidential purposes. Typical service would include stores, offices, shops, restaurants, sorority and fraternity houses, boarding houses, hotels, service garages, wholesale houses, filling stations, barber shops, beauty salons, apartment houses, common areas of shopping malls or apartments (such as halls or basements), churches, elevators, schools and facilities located away from the home site. This is not an all-inclusive list.

c. The definitions above are based upon the supply of service to an entire premise through a single delivery and metering point. Separate supply for the same customer at other points of consumption may be separately metered and billed.

d. If separate metering is not practical for a single unit (one premise) that is using gas for both domestic purposes and for conducting business (or for nonresidential purposes as defined herein), customer will be billed under the predominate use policy. Under this policy, customer’s combined service is billed under the rate (residential or nonresidential) applicable to the type of service which constitutes 50% or more of customer’s total connected load.

e. Other classes of service furnished by the Company shall be defined in applicable rate schedules, or in rules and regulations pertaining thereto. Service to customers for which no specific rate schedule is applicable shall be billed under the nonresidential rates.
4. DISPATCHING - Transportation customers will adhere to gas dispatching policies and procedures established by the Company to facilitate transportation service. The Company will inform customer of any changes in dispatching policies that may affect transportation services as they occur.

5. RULES COVERING GAS SERVICE TO MANUFACTURED HOMES - The rules and regulations for providing gas service to manufactured homes are in accordance with the Code of Federal Regulations (24CFR Part 3280 - Manufactured Home Construction and Safety Standards) Subparts G and H which pertain to gas piping and appliance installation. In addition to the above rules, the Company also follows the regulations set forth in the NFPA 501A, Fire Safety Criteria for Manufactured Home Installations, Sites, and Communities. This information is available at Montana-Dakota Utilities Co.’s offices.

6. CONSUMER DEPOSITS - The Company will determine whether or not a deposit shall be required of an applicant for gas service in accordance with Commission Rules ARM 38.5.1101 through 38.5.1112.

   a. The amount of such deposit for residential service shall not exceed one-sixth of the estimated annual billing. For nonresidential service, the amount of the applicant’s deposit shall not exceed 25% of the applicant’s estimated annual billing.

   b. The Company shall accept in lieu of a cash deposit a contract signed by a guarantor, whereby the payment of a specified sum not to exceed an estimated one year bill shall be guaranteed. Such estimation shall be made at the time the service is established. Guarantee terms and conditions will be in accordance with Commission Rules ARM 38.5.1111 and 38.5.1112.
Interest on deposits held shall be accrued at the rate set forth in Rate 100, §VI.3. Interest shall be computed from the time of deposit to the time of refund or of termination. Interest shall be credited to customer’s account annually during the month of December.

Deposits with interest shall be refunded to customers at termination of service provided all billings for service have been paid. Deposits with interest will be refunded to all active customers, after the deposit has been held for 12 months, provided a prompt payment record, as defined in the Commission rules, has been established.

7. METERING AND MEASUREMENT- The Company will meter the quantity of natural gas delivered to customer at the delivery point. Such meter measurement will be conclusive upon both parties unless such meter is found to be inaccurate, in which case the quantity supplied to customer shall be determined by as correct an estimate as it is possible to make, taking into consideration the time of year, the schedule of customer’s operations and other pertinent facts. The Company will test meters in accordance with applicable state utility rules and regulations.

Customer may install, operate, and maintain at its sole expense, equipment for the purpose of measuring the amount of natural gas delivered over any measurement period, provided the equipment shall not interfere with such delivery or with the Company’s meter.

8. MEASUREMENT UNIT FOR BILLING PURPOSES - The measurement unit for billing purposes shall be one (1) decatherm (dk), unless otherwise specified. Billing will be calculated to the nearest one-tenth (1/10) dk. One dk equals 10 therms or 1,000,000 Btu’s. Dk’s shall be calculated by the application of a thermal factor to the volumes metered. This thermal factor consists of:
a. An altitude adjustment factor used to convert metered volumes at local sales base pressure to a standard pressure base of 14.73 psia, and

b. A Btu adjustment factor to reflect the heating value of gas delivered.

9. UNIT OF VOLUME FOR MEASUREMENT - The unit of volume for purpose of measurement shall be one (1) cubic foot of gas at either local sales base pressure or 14.73 psia, as appropriate, and a temperature base of 60 degrees Fahrenheit (60 F). All measurement of natural gas by orifice meter shall be reduced to this standard by computation methods, in accordance with procedures contained in ANSI-API Standard 2530, First Edition, as amended. Where natural gas is measured with positive displacement or turbine meters, correction to local sales base pressure shall be made for actual pressure and temperature with factors calculated from Boyle’s and Charles’ Laws. Where gas is delivered at 20 psig or more, the deviation of the natural gas from Boyle’s Law shall be determined by application of Supercompressibility Factors for Natural Gas published by the American Gas Association, Inc., Copyright 1955, as amended or superseded. Where gas is measured with electronic correcting instruments at pressures greater than local sales base, supercompressibility will be calculated in the corrector using AGA-3/NX-19, as amended, supercompressibility calculation. For handbilled accounts, application of supercompressibility factors will be waived on monthly billed volumes of 250 dk or less.

Local sales base pressure is defined as four or five ounces (depending on service area) per square inch gauge pressure plus local average atmospheric pressure.

10. PRIORITY OF SERVICE AND ALLOCATION OF CAPACITY - Priority of Service from highest to lowest:
   a. Priority 1 - Firm sales service.
b. Priority 2 - Small interruptible sales and small interruptible gas transportation service at the maximum rate on a pro rata basis.

c. Priority 3 - Large interruptible sales and large interruptible gas transportation service at the maximum rate on a pro rata basis.

d. Priority 4 - Small interruptible sales and transportation services at less than the maximum rate from the highest rate to the lowest rate and on a pro rata basis where equal rates are applicable among customers.

e. Priority 5 - Large interruptible sales and transportation services at less than the maximum rate from the highest rate to the lowest rate and on a pro rata basis where equal rates are applicable among customers.

f. Priority 6 - Gas scheduled to clear imbalances.

Montana-Dakota shall have the right, in its sole discretion, to deviate from the above schedule when necessary for system operational reasons and if following the above schedule would cause an interruption in service to a customer who is not contributing to an operational problem on Montana-Dakota’s system.

Montana-Dakota reserves the right to provide service to customers with a lower priority while service to higher priority customers is being curtailed due to restrictions at a given delivery or receipt point. When such restrictions are eliminated, Montana-Dakota will reinstate sales and/or transportation of gas according to each customer’s original priority.

11. EXCESS FLOW VALVE - In accordance with Federal Pipeline Safety Regulations 49 CFR 192.383, the Company will install an excess flow valve on an existing service line at the customer’s request at a mutually agreeable date. The actual cost of the installation will be assessed to the customer.
12. REPORTING REQUIREMENTS - Customer shall furnish the Company all information as may be required or appropriate to comply with reporting requirements of duly constituted authorities having jurisdiction over the matter herein.

13. LATE PAYMENT – Amounts billed for energy or transportation services will be considered past due if not paid by the due date shown on the bill.

For residential customers, an amount equal to the percentage set forth in Rate 100, §VI.2 will be applied to any unpaid balance existing at the second subsequent billing date provided, however, that such amount shall not apply where a bill is in dispute, written payment schedule has been arranged and complied with, or where the Low Income Energy Assistance Program (LIEAP) is being utilized up to the point where the funds are exhausted and the recipient has full responsibility for the account. In the event of a breach of a written payment arrangement, an amount equal to the percentage set forth in Rate 100, §VI.2 of the total remaining unpaid balance shall apply beginning 60 days after the date of the last payment under the payment arrangement. Such amount shall also apply (where the LIEAP program was utilized) to the total remaining unpaid balance on all accounts beginning 60 days after the LIEAP program no longer applies to such account.

For nonresidential customers, an amount equal to the percentage set forth in Rate 100, §VI.2 will be applied to any unpaid balance existing at the immediate subsequent billing date.

All payments received will apply to customer’s account prior to calculating the late payment charge. Those payments applied shall satisfy the oldest portion of the bill first.
14. RETURNED CHECK CHARGE - A charge as set forth in Rate 100, §VI.1.b. will be collected by the Company for any check not honored by customer's financial institution for any reason.

15. MANUAL METER READING CHARGE – A charge as set forth in Rate 100, §V.1.k. will be assessed monthly for customer(s) who have requested, and received Company approval, to have their meter read manually each month in lieu of an AMR-equipped meter read. Customers agree to contract for the manual reading of the meter for minimum period of one year.

16. TAX CLAUSE - In addition to the charges provided for in the gas tariffs of the Company, there shall be charged pro rata amounts which, on an annual basis, shall be sufficient to yield to the Company the full amount of any usage fees or any sales, uses, franchise, or excise taxes, whether they be denominated as license taxes, occupation taxes, business taxes, privilege taxes, or otherwise, levied against or imposed upon the Company by any municipality, political subdivision, or other entity, for the privilege of conducting its utility operations therein.

The charges to be added to customer’s service bills under this clause shall be limited to customers within the corporate limits of the municipality, political subdivision or other entity imposing the tax.

17. UTILITY CUSTOMER SERVICES:
   a. The following services will be performed at no charge regardless of the time of performance:
      1. Responding to fire and explosion calls.
      2. Investigating hazardous conditions on customer premises, such as gas leaks, odor complaints and combustion gas fumes.

4. Pilot relighting will be performed at no charge two (2) times per calendar year per customer. Additional pilot relights will be performed on a chargeable basis. Customers that qualified for the Low Income Energy Assistance Program (LIEAP) during the current LIEAP year will not be charged for a pilot relight.

b. The following service calls will be performed at no charge during the Company’s regular business hours:
   1. Reconnecting service to an existing facility (cut-in) or disconnecting service (cut-out).
   2. Lighting pilots in connection with establishing service when working cut-in orders.
   3. Investigating high bills or inadequate service complaints.
   4. Locating underground Company facilities for contractors, builders, plumbers, etc.
   5. Investigating noisy meter complaint.
   6. Moving meter from inside to outside.

18. UTILITY SERVICES PERFORMED AFTER NORMAL BUSINESS HOURS - For service requested by customers to be performed after the Company's normal business hours of 8:00 am to 5:00 pm Monday through Friday local time, a charge will be made for labor at the overtime service rate set forth in Rate 100, §VI.1.f. and material at retail prices.
Customers requesting service after the Company's normal business hours will be informed of the after-hour service rate and encouraged to have the service performed during normal business hours.

To ensure the Company can service the customer during normal business hours, the customer's call must be received by 12:00 p.m. on a regular work day for a disconnection or reconnection of service that same day. For calls received after 12:00 p.m. on a regular work day, customers will be advised that over time service rates will apply if service is required that day and the work cannot be completed during normal working hours. Service may be scheduled for a future workday to avoid overtime charges.

19. NOTICE TO DISCONTINUE GAS SERVICE - Customers desiring to have their gas service disconnected shall notify the Company during regular business hours, one business day before service is to be disconnected. Such notice shall be by letter, or telephone call to the Company's Customer Service. Saturdays, Sundays and legal holidays are not considered business days.

20. INSTALLING TEMPORARY METERING FACILITIES OR SERVICE - A customer requesting a temporary meter installation and service will be charged for such installation in accordance with Rate 100, §VI.1.i.

21. RECONNECTION FEE FOR SEASONAL OR TEMPORARY CUSTOMER - A customer who requests reconnection of service, at a location where same customer discontinued the same service during the preceding 12-month period will be charged as follows:

   Residential – The Basic Service Charge applicable during the period service was not being used and a charge of $30.00. The minimum will be based on standard overtime rates for reconnecting service after normal business hours.
Non-Residential – The Basic Service Charge applicable during the period while service was not being used. However, the reconnection charge applicable to seasonal business concerns such as irrigation, swimming facilities, grain drying, and asphalt processing shall be the Basic Service Charge applicable during the period while service was not being used less the Distribution Delivery Charge revenue collected during the period in-service for usage above the annual authorized usage by rate class (Small Firm General = 155 dk; Large Firm General = 1164 dk; and Small Interruptible = 7917 dk). A reconnection fee of $30.00 will also apply to reconnections. The minimum will be based on standard overtime rates for reconnecting service occurring after normal business hours.

Transportation customers who cease service and then resume service within the succeeding 12 months shall be subject to a reconnection charge as set forth in Rate 100, § VI.1.e. whenever reinstallation of the required remote data acquisition equipment is necessary.

22. DISCONTINUANCE OF SERVICE FOR NONPAYMENT OF BILLS - All amounts billed for services are due when rendered and become delinquent if not paid by the due date shown on the bill. If any customer shall become delinquent in the payment of amounts billed, such service may be discontinued by the Company under the applicable rules of the Commission.

The Company may collect a fee, as set forth in Rate 100, § VI.1.c., before restoring gas service which has been disconnected for non-payment of service bills. Customers that qualified for the Low Income Energy Assistance Program during the current LIEAP program year will be subject to a reconnection charge of $12.00.
For calls received after 12:00 p.m. on a regular work day, customers will be advised that over time service rates will apply if service is required that day and the work cannot be completed during normal working hours. Service may be scheduled for a future workday to avoid overtime charges.

23. DISCONTINUANCE OF SERVICE FOR CAUSES OTHER THAN NONPAYMENT OF BILLS - The Company reserves the right to discontinue service for any of the following reasons:
   a. In the event of customer use of equipment in such a manner as to adversely affect the Company's equipment or service to others.
   b. In the event of tampering with the equipment furnished and owned by the Company.
   c. For violation of, or noncompliance with, the Company's rules on file with the Commission.
   d. For failure of customer to fulfill the contractual obligations imposed as conditions of obtaining service.
   e. For refusal of reasonable access to property to the agent or employee of the Company for the purpose of inspecting the facilities or for testing, reading, maintaining or removing meters.

The right to discontinue service for any of the above reasons may be exercised whenever and as often as such reasons may occur, and any delay on the part of the Company in exercising such rights, or omission of any action permissible hereunder, shall not be deemed a waiver of its rights to exercise same.
Nothing in these regulations shall be construed to prevent discontinuing service without advance notice for reasons of safety, health, cooperation with civil authorities, or fraudulent use, tampering with or destroying the Company's facilities.

The Company may collect a reconnect fee, as set forth in Rate 100, § VI.1.c. before restoring gas service which has been disconnected for the above causes.

24. UNAUTHORIZED USE OF SERVICE - Unauthorized use of service is defined as any deliberate interference such as tampering with the Company's meter, pressure regulator, registration, connections, equipment, seals, procedures or records that result in a loss of revenue to the Company. Unauthorized service is also defined as reconnection of service that has been terminated, without the Company's consent.

1. Examples of unauthorized use of service includes, but is not limited to the tampering or unauthorized reconnection by the following methods:
   a. Bypass piping around meter.
   b. Bypass piping installed in place of meter.
   c. Meter reversed.
   d. Meter index disengaged or removed.
   e. Service or equipment tampered with or piping connected ahead of meter.
   f. Tampering with meter or pressure regulator that affects the accurate registration of gas usage.
   g. Gas being used after service has been discontinued by the Company.
   h. Gas being used after service has been discontinued by the Company as a result of a new customer turning gas on without the proper connect request.
2. In the event that there has been unauthorized use of service, customer shall be charged for:
   a. Time, material and transportation costs used in investigation or surveillance.
   b. Estimated charge for non-metered gas.
   c. On-premise time to correct situation.
   d. Any damage to Company property.
   e. All such charges shall be at current standard or customary amounts being charged for similar services, equipment, facilities and labor by the Company. A minimum fee of $30.00 will apply.

3. Reconnection of Service:
   Gas service disconnected for any of the above reasons shall be reconnected after a customer has furnished satisfactory evidence of compliance with the Company’s rules and conditions of service and paid any service charges which are due, including:
   a. All delinquent bills, if any;
   b. The amount of any Company revenue loss attributable to said tampering;
   c. Expenses incurred by the Company in replacing or repairing the meter or other appliance, costs incurred in preparation of the bill, plus costs as outlined in Paragraph 2 above;
   d. Reconnection fee applicable; and
   e. A cash deposit, the amount of which will not exceed the maximum amount determined in accordance with Commission Rules ARM 38.5.1105.

25. GAS METER TEST BY CUSTOMER REQUEST - Any customer may request the Company to test its gas meter. The Company shall make the test as soon as possible after receipt of the request. If a request is made within one year after a previous request, the Company may require a deposit as follows:
Natural Gas Service

</table>

* Cubic feet per hour

The deposit shall be refunded only if the meter is found to have an unacceptable error of greater than or less than two percent, as defined in the Commission's regulations. In the case where a meter is replaced due to malfunction, a customer will be allowed one additional free meter test within 12 months, if requested by the customer.

26. BILL DISCOUNT FOR QUALIFYING EMPLOYEES – A bill discount may be available for residential use only in a single family unit served by Montana-Dakota Utilities Co. to qualifying retirees of MDU Resources and its subsidiaries. The bill shall be computed at the applicable rate, and the amount reduced by 33 1/3 percent.

27. RATES FOR SPECIAL PROVISIONS:
   Rate 101 - Gas Meter Testing Program
   Rate 119 - Interruptible Gas Service Extension Policy
   Rate 120 - Firm Gas Service Extension Policy
   Rate 124 - Replacement, Relocation and Repair of Gas Service Lines
