Canceling Original Sheet No. 72

NET METERING SERVICE Rate 58

Page 1 of 3

AVAILABILITY:

Available to any customer that owns and operates a solar, wind, biomass or hydroelectric generating facility with a capacity of not more than 25 Kw that is located on the customer's premises and that is intended primarily to offset part or all of the customer's own electrical requirements. The generating facility must be interconnected and operated in parallel with the Company's existing transmission and distribution facilities. This service is offered in compliance with Wyoming Statutes §37-16-101 to 104.

APPLICABILITY:

Net Metering means measuring the difference between the electricity supplied by the Company and electricity generated by an eligible customer-generator and fed back to the electric grid over the applicable billing period.

RATE:

Basic Service Charge: The Basic Service Charge per the applicable standard service rate.

Energy Charge: If the energy supplied by the Company exceeds the customer generated energy, the energy charge (including the PSCA) per Kwh under the otherwise applicable standard service tariff shall be applied to the positive energy balance and charged to the customer.

If the energy supplied by the customer generator exceeds the amount of energy supplied by the Company, the net Kwh shall be credited to the customer's next monthly bill.

GENERAL TERMS AND CONDITIONS:

1. At the beginning of each calendar year, any Kwh credit balance accumulated during the previous year shall be purchased by the Company at the currently effective avoided cost rate (energy payment) applicable under Parallel Generation Rate 57.

Date Filed: March 14, 2025

Effective Date: Service rendered on and after June 1, 2025

2. The customer is responsible for all costs associated with its facility and is also responsible for all costs related to any modifications to the facility that may be required by the Company for purposes of safety and reliability.
3. A Net Metering facility shall meet all applicable safety and performance standards established by the National Electrical Code.
4. The customer is responsible, at their expense, for providing lockable switch equipment capable of isolating the net metering facility from the Company's system. Such equipment shall be approved by the Company and shall be accessible by the Company at all times.
5. A meter shall be installed between the parties to measure the flow of energy in each direction between the customer and Montana-Dakota. The customer shall be responsible for all expenses involved in purchasing and installing facilities necessary for the meter installation.
6. The customer shall enter into an Interconnection Agreement for Net Metering Service.
7. Any changes made to the customer's generating facility that increases the capacity, included in the customer's Interconnection Agreement, must first be approved by Montana-Dakota prior to installation to ensure the continued safe and reliable operation of the Company's electric system. If the Company is not contacted, the Company reserves the right to disconnect the facility until the issue is resolved.
 - a. If the changes cause the generating facility's capacity to exceed the 25 Kw maximum allowed for under this rate schedule, the customer must enter into a new Interconnection Agreement under Parallel Generation Rate 57. Absent a new Interconnection Agreement, the Company reserves the right to disconnect the facility until the issue is resolved.
