- Montana-Dakota uses the Air-Conditioning, Heating and Refrigeration Institute (AHRI) to determine equipment efficiency ratings. You can access the AHRI web site at www.ahridirectory.org.
- Dealers are not eligible to receive their customer's incentive.
- Furnaces with an AFUE of 95% or greater are eligible for the incentive if they are installed as a replacement for an existing natural gas furnace. New construction and fuel conversion are not eligible for the incentive.
- Equipment installed under warranty replacement does not qualify for the incentive payment.

INCENTIVE PAYMENT DETAILS

Montana-Dakota issues incentive payments in the form of a check, not a utility bill credit. Montana-Dakota is not responsible if the dealer does not provide accurate information about the amount of incentive or equipment eligibility. Allow 4-6 weeks for incentive processing.

Incentive qualifications and amounts are subject to change and funding for the program is limited. Completed incentive applications will be processed in the order in which they are received. Incentives will not be paid if funds are depleted prior to the end of the plan year (March 1 – February 28).

Montana-Dakota reserves the right to cancel or modify this program at any time.
